Confused About Vitamins And Supplements?

You're not alone. Today, we live in the age of information. TV and internet ads are very powerful sources of information that influences millions of consumers daily. Many consumers try to make health decisions based on contradicting information provided by these ads and by well-meaning but misinformed media reports. To make matters worse, the marketplace is flooded with vitamin and supplement products that offer little if any nutritional benefits. Consumers become confused and frustrated, not knowing who or what to believe, i.e. "What is good for you today may be bad for you tomorrow."

People and Products You Can Trust?

When you partner with LifePlus you will have access to reliable diet and nutrition information and the very best specially formulated nutrition products shipped factory fresh direct to your door.

Not Just Another "Vitamin" Company

Back in 1936 V. M. Nutri, the mother company of LifePlus, was started by a prominent Midwest medical doctor who realized a need for quality natural food supplements for his patients. The results of his unique formulated products quickly spread through out the medical community. V. M. Nutri began researching, developing and manufacturing specially formulated all natural products exclusively for doctors and healthcare professionals. In 1992, LifePlus was established to provide these same doctor quality products directly to the consumer. LifePlus continues their time honored tradition of developing and manufacturing cutting edge products that help people to look better, feel better and live better.

"Why do people prefer LifePlus Products to other nutritional products they have tried?"

"Good question - Why do they?"

Reason #1 Proprietary PhytoZyme® Base

Vitamin supplements require a 'filler' agent to bind and hold the ingredients together. Many companies utilize an artificial filler, which has no nutritional value. Instead, we utilize our proprietary PhytoZyme® Base. This formula made from special herbs, phytonutrients, co-factors, plant enzymes and more than thirty different fruits & vegetables, synergistically assists in the assimilation of our products' active ingredients.

Reason #2 Cold Production Processing

Cold production processing retains the potency of enzymes and vitamins, which would otherwise be destroyed by heat during production - reducing the nutritional benefits.

Reason #3 High Quality and Superior Formulations

Our unique product line utilizes only the highest quality materials which are as natural as possible. They are formulated in the most synergistic way to provide optimum nutritional results. Because our products are

manufactured in-house, we can naturally guarantee potency and quality.

Our formulas are pH balanced, hypoallergenic, synergistic and contain no artificial additives. We use only natural and naturally derived manufacturing aids.

Weight Management Manual

Start a nutrition program instead of a crash diet!

**BodySmart Solutions
Lifestyle Management Program**

The BodySmart program is not about attaining a certain weight goal or dress size. It is based upon reaching an keeping a fit body and a healthy waist to hip ratio (WHip).

LifePlus is a health company, and weight management is a key component of health, whether you need to lose or maintain weight. That is why we've developed the BodySmart Program.

LifePlus Pays For Referrals!

Active LifePlus Members are paid when their referrals purchase products direct from the factory. Not just one time, but every time they purchase products direct from the factory.

LifePlus takes the orders, collects the money and ships the products factory fresh direct to your referrals door. They keep track of all sales generated through your referrals and mail you a check the following month. LifePlus does all the work for you!

A great way to earn a second income or build a full time business! Ask for details.
